

Stem Cell Center

Research for Better Health

Stem Cell Center Seminar Series Spring 2011 (CMDB 256)

Wednesday, April 6, 2011

Mark Mercola (Burnham Institute, San Diego)

High Throughput Biology to Discover Novel Targets for
Cardiac Regeneration and Protection

Wednesday, April 20, 2011

Eduardo Marban (Cedars-Sinai Heart Institute, Los Angeles)

Stem Cells for Cardiac Regeneration: From Bench to Bedside

Wednesday, April 27, 2011

Robert Blelloch (Stanford)

MicroRNA Regulation of Embryonic and Induced Pluripotent Stem Cells

Wednesday, May 4, 2011

Shyni Varghese (UCSD):

Engineering Approaches to Regenerative Medicine:
Marriage Between Stem Cell Biology and Materials Science

Wednesday, May 11, 2011

Kris Kobeliak (USC)

Defining BMP Functions in the Hair Follicle

Wednesday, May 18, 2011

Gay Crooks (UCLA)

Mapping the First Stages of Mesoderm Commitment
During Differentiation of Human Embryonic Stem Cells

Wednesday, May 25, 2011

Holger Willenbring (UCSF)

Pluripotent Stem Cell-Derived Hepatocytes

Wednesday, June 1, 2011

George Sen (UCSD)

DNA Methylation and Epigenetic Control of Cellular Differentiation

Location: Genomics Auditorium

Time: 12:00 PM

Students may take this for credit as CMDB 256
